Subject: Mercury compliance

All standard TecnPak® products, manufactured by Miner Elastomer Products Corporation, are not manufactured with any Mercury. This is based upon information provided by suppliers of the raw materials used by Miner Elastomer Products Corporation to manufacture these products. Mercury is not introduced into the product at any point in our manufacturing process. As such, Miner Elastomer Products Corporation makes no independent representations or warranties, expressed or implied, and assumes no liability in connection with the use of this information.

Should you have any questions regarding this information please do not hesitate to contact us directly.

Regards,

Terry J. Koehn
